The next
frontier

Work
experience

You know
that engineering
problem that keeps you
awake at night?

Or the issue that you haven't
got time to solve?

Just because you haven't read about
it on these boards, doesn't mean we
can't help.

We can't wait to bring our
innovations to your challenges.
Because solving your
problems is what we're
here to do.

The wider
vision...

Creating
a more
sustainable
future for West
Cumbria

To create multiple technology
and innovation centres of
excellence that support
both the Sellafield site and
wider NDA estate, which
are recognised for their
professionalism and industry
leading asset management
principles.

To understand where we have
a market differentiator and use
that to create opportunities
with the supply chain to
enable them to diversify and
bring jobs and opportunities
to our local area.

Support external stakeholders
to make West Cumbria a more
vibrant place for start-ups and
business growth.

- Consolidate improvements and
apply best practice.

- Create a network of SMEs and
delivery partners to accelerate
hazard reduction for Sellafield,
the wider NDA estate and
beyond?

- Sellafield and the supply chain
partnership – working together
to deliver the same mission.

- Provide engineering &
maintenance capabilities
local, regional and national by
equipment type.

- We have a positive impact on
our local community and bring
opportunities for employment
and wealth in the future.

An NDA group company

 Sellafield Ltd

Welcome to the
**Engineering
Centre of
Excellence**

Whether you're looking for civil
repairs, a way of preventing future
mechanical breakdowns, or a place
to collaborate with the supply
chain, prototype and innovate –
you're in the right place.

We can't wait to work with you.
