

## **Register of Functional Safety Engineers**

The following engineers have, through peer review, satisfied the requirements for the InstMC qualification 'Registered Functional Safety Engineer'. These requirements include demonstration of competence & commitment:

1. Registration with the Engineering Council as CEng in demonstration of professional competence in accordance with UK-SPEC. This in turn is held to demonstrate underpinning knowledge and understanding (UK&U) and a commitment to Continuing Professional Development (CPD).
2. Demonstration of at least an aggregate of 3 years' diverse and direct experience in functional safety matters at a professional level.
3. Demonstration of a comprehensive knowledge of related standards and good practice in functional safety.
4. Demonstration of on-going (not prospective or historical), and competent engagement with functional safety matters at a professional level.
5. Demonstration of Continuing Professional Development specific to functional safety.

<b>Surname</b>	<b>Given Names</b>	<b>EngC Reg No.</b>	<b>RFSE Reg No.</b>	<b>Date of Registration</b>
